PROFILE

Dedicated and methodical Computer Science undergraduate with a passion for learning and growth. Excels in team environments and proactive problem-solving. Eager to take on responsibilities and contribute meaningfully to software development projects. Continuously seeking opportunities to grow professionally and deliver impactful results.

PROJECTS

- **UniVerse 3D – 3D University Indoor Navigation Game**

[Universe 3D - URL](#) \ [Universe 3D - Github](#)

- Developed a React and Vite based 3D campus navigation platform with reusable components and React Router routing and Built the 3D environment using Three.js, WebGL, GLTFLoader, Camera controls, Lighting, and GLB building models.
- Implemented avatar setup, nickname entry, building selection, sessionStorage, and game screen state handling and also Added room navigation, teleport targets, auto-walk logic, floor tracking, and floor-to-floor movement.
- Optimized movement and collision detections and Integrated missions, quizzes, letter hunt, treasure hunt, notice board, and JSON based door labels.
- Built REST APIs using Node.js, Express.js for feedback, contact, and pricing forms and Designed MongoDB Atlas schemas with Mongoose for feedback, contacts, and inquiries.
- Led the team as team leader by managing Jira tasks, sprint planning, progress tracking, GitHub workflow, testing, and documentation.
- **Tech Stack:** React.js, Vite, Three.js, WebGL, Node.js, Express.js, MongoDB Atlas, Mongoose, JavaScript, CSS3, Blender, Jira, GitHub, Vercel

- **Savor – AI Intelligent Expense Assistant**

[Savor - Github](#)

- Built a React based personal finance app for salary planning, expense tracking, profile management, and AI coaching.
- Developed responsive UI using React, Tailwind CSS, reusable components, theme mode, and USD/LKR currency switching and Implemented income tracking, savings goals, expense categories, monthly summaries, and recent transaction views.
- Integrated Google Gemini AI to provide finance guidance using live income, expense, and budget data.
- Built REST APIs using Node.js, Express.js, MongoDB Atlas, and Mongoose.
- Managed GitHub workflow, environment setup, API testing, and project documentation.
- **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, Mongoose, Google Gemini API, JavaScript, GitHub

- **Employee Calendar Management System**

[Employee Calendar Management System - Github](#)

- Built a Java RESTful API for smart campus room, sensor, and sensor reading management.
- Developed REST endpoints for creating, retrieving, filtering, and deleting rooms and sensors.
- Implemented nested sensor reading APIs using JAX-RS, Jersey, and JSON request handling.
- Used in-memory data storage with Singleton pattern, ConcurrentHashMap, and ArrayList.
- Added validation, linked resource checks, custom exceptions, and HTTP status based error handling.
- Configured an embedded Grizzly server and Maven based project setup.
- **Tech Stack:** Java 17, JAX-RS, Jersey, Grizzly Server, Maven, Jackson JSON, REST API, GitHub

- **Life on Land – Environmental Awareness Web Page**

- Developed a responsive and accessible web page focused on environmental sustainability themes.
- Designed user-friendly interfaces aligned with the project's environmental concept.
- Applied wireframing, prototyping, and structured user flow design principles.
- **Tech Stack:** HTML, CSS, JavaScript, Figma

EDUCATION

- **BSc (Hons) in Computer Science** Sep 2024 - Present
Informatics Institute of Technology (IIT) affiliated with University of Westminster (UoW), UK. (Third Year)
- **Diploma in Information Technology** Jan 2023 - Dec 2023
International College of Business and Technology (ICBT), Colombo.
- **GCE Advanced Level Examination (Maths Stream)** Aug 2022
Gothami Balika Vidyalaya, Colombo 10.

TECHNICAL SKILLS

- **Programming Languages**
Java, JavaScript, Python
- **Frontend Development**
HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Next.js, Three.js, WebGL
- **Backend Development**
Spring Boot, Node.js, Express.js, Laravel, REST APIs, JAX-RS, Jersey
- **Database Management**
MySQL, MongoDB, MongoDB Atlas
- **Tools and Technologies**
Git, GitHub, Maven, Postman, Figma, VS Code, IntelliJ IDEA, Android Studio, Postman, XAMPP
- **Core Concepts**
OOP, CRUD Operations, API Development, JSON Handling, Authentication
- **Libraries**
Pandas, Numpy, sklearn, matplotlib

- **Project Management Collaboration**

ClickUp, Jira

CERTIFICATIONS

- **Certificate Course in English Language** (April 2023 - October 2023)
Institute of Human Resources Advancement , University of Colombo.
- **Certificate Course in Information Technology** (March 2023 - October 2023)
Institute of Human Resources Advancement , University of Colombo.
- **Guiding Leadership and Outreach (GLO) program** (April 2026)
Sysco Labs , Colombo 03.

COMPETITIONS ACHIEVEMENTS

- **IEEE Hackathon Extreme 19.0 (Global Hackathon Competition)**
Participant
- **Hult Prize 2026 (University-Level Entrepreneurship Competition)**
Competitor
- **CodeSprint 11 Coding Competition - 2026**
Participant

SOFT SKILLS

- | | |
|---|---|
| <ul style="list-style-type: none"> • Leadership & Team Coordination • Teamwork & Collaboration • Critical Thinking | <ul style="list-style-type: none"> • Problem Solving • Time Management & Adaptability • Ability to Work Under Pressure |
|---|---|
